

LARGE APARTMENT

- 1. Entrance Hall.** Expensively deep carpet.
- 2. and 3. Storage Lockers.** These are almost empty with just a few boxes of personal effects and paper printouts from work. There is an *Intect Model AJ-62* janitorial bot plugged into a power outlet inside one of the storage lockers.
- 4. Kitchen.** A large and well-appointed kitchen.
- 5. Gym.** Bedroom converted into a personal gymnasium.
- 6. Living Space.** Clean and utilitarian. Looks barely lived-in. Three-screen workstation against one wall. From the casual seating area there is an incredible view out into the ocean through a heavily reinforced plexiglass wall.
- 7. Bedroom.** Tidy except for a collection of cases and boxes full of clothing on the sofa.
